Builders Association

ARTBA-CUTC Memorandum of Understanding

Recognizing the 20-plus-year history between the American Road & Transportation Builders Association (ARTBA) and the Council of University Transportation Centers (CUTC), the two associations adopt the following memorandum of understanding.

- The ARTBA Research and Education Division (RED) and CUTC will work together (with additional partners as desired) to highlight the important role of research in transportation.
- CUTC will promote the ARTBA student video contest and S.S. Steinberg Award to its membership. In addition to the traditional four winners, ARTBA will include a special recognition for the highest ranked video from a CUTC member institution.
- ARTBA will continue to support and promote CUTC's webinar series.
- CUTC will encourage its members to enroll as part of the ARTBA Research and Education Division, where they could participate in policy discussions and represent the voice of the research community.

Dr. Patrick Szary, Associate Director, Center for Advanced Infrastructure & Transportation (CAIT)
Rutgers University
CUTC President

Dr. Karen Philbrick, Executive Director, Mineta Transportation Institute, San Jose State University
ARTBA Research & Education Division President
